

## SUMMARY OF EVALUATION

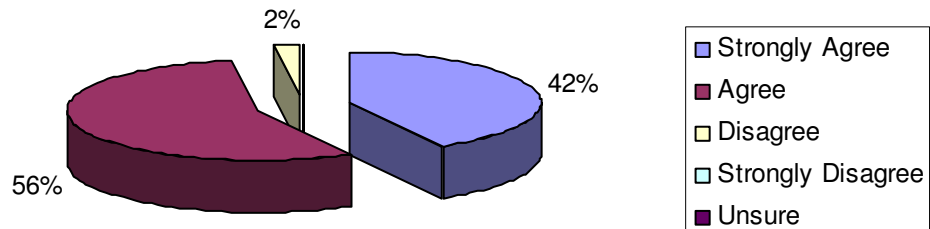

**"Generic issues for Non Medical Prescribers" Tuesday 14<sup>th</sup> July 2009**

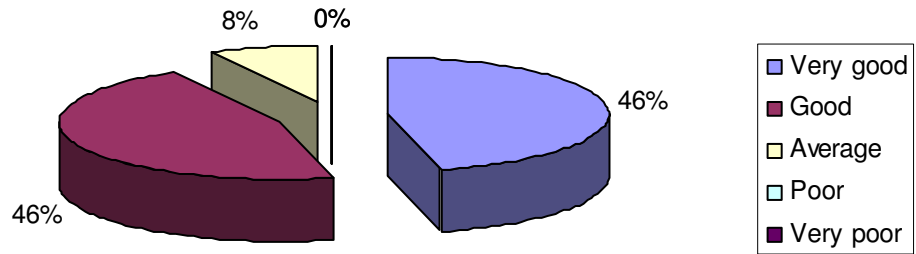

### The organisation of the conference was satisfactory

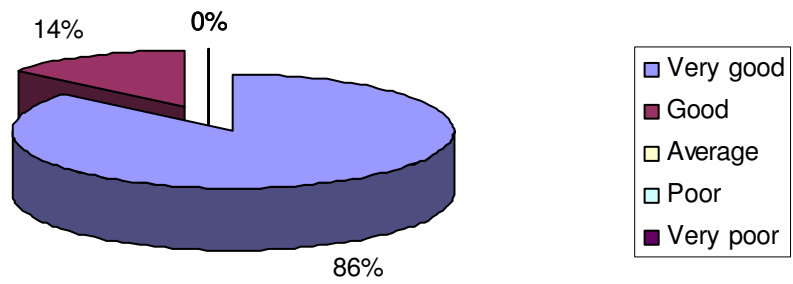

### The venue and catering were satisfactory

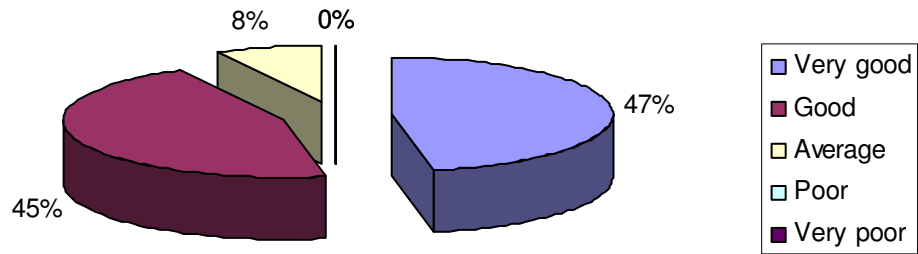

### Professional Issues for Non Medical Prescribers (Fiona Peniston-Bird)

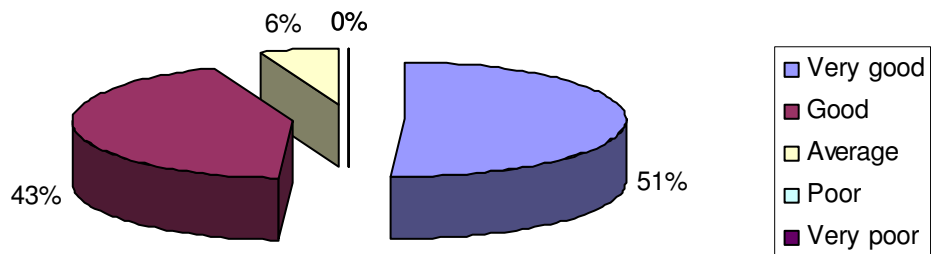

### Medico-Legal Aspects of Non Medical Prescribing (Richard Griffith)

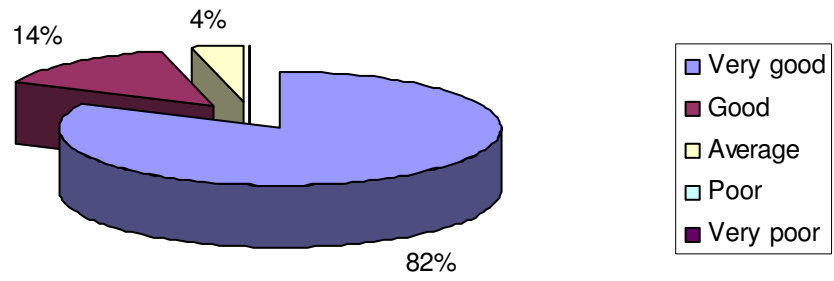

### Mental Capacity and Consent (Paul Gantley)

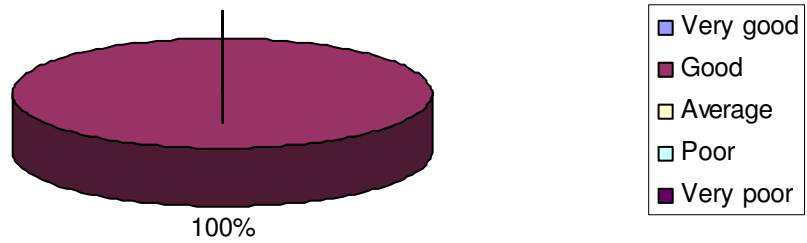

### How to get the best out of your BNF (Claire Preston)

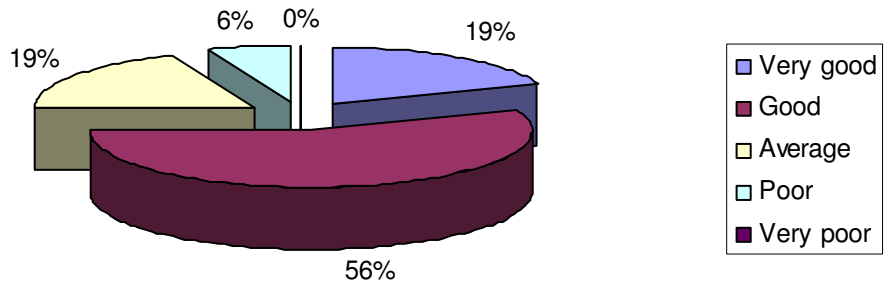

### Ensuring Safe Prescribing (David Gerrett)

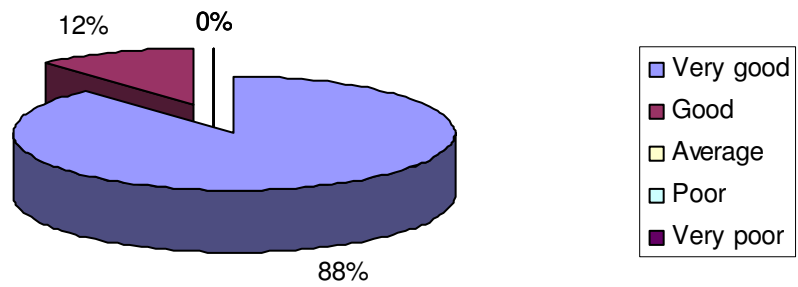

### Prescribing for Children (Lorraine Major)

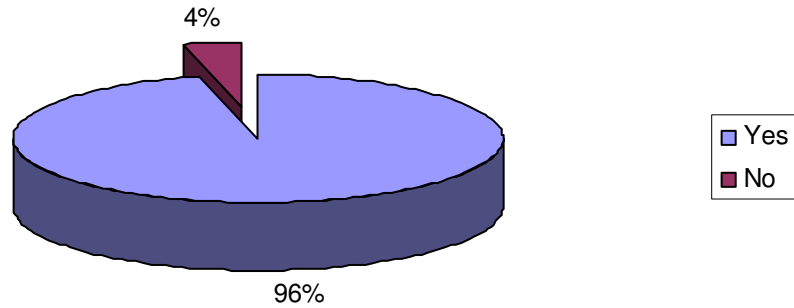

### Non Medical Prescribing in Mental Health (Steven Letoi)

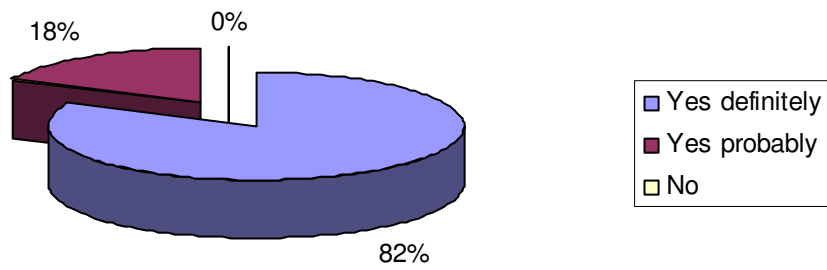

### Evidence Based Medicine (Jerome Durodie)

**Did you find the opportunity to network with colleagues helpful?**

**Would you be interested in attending another of our NMP events in the future?**

100% of delegates said that they would be interested in attending another of our NMP events in the future.

**What two key points about Generic Issues for Non Medical Prescribers will you take away with you today?**

Evidence Based Session x 12  
Mental Capacity questions x 10  
Get a new BNF  
How to get the best out of BNF x 7  
Basis for drug side effect profiles in BNF x 6  
Report to NPSA x 3  
Understanding NPSA role x 4  
NPSA lack of response by GPs  
Safe prescribing info & talk x 4  
Clinical Governance  
Legal aspects x 12  
Update of NMC Standards documents to check out x 2  
Ideas for CPD for our NMPs x 3  
eCAB website  
That there is still huge variation in the roles (& pay!) of NMP's across different Trusts x 3  
We have a long way to go to realise our true potential  
Lots of similarities for NMPs across the country x 2  
Able to network x 2  
Resources available  
All the content was excellent – difficult to stipulate 2 points  
The importance of keeping up to date with NMP issues  
National clinical assessment service  
That I have the skills and knowledge to ensure growth of prescribing alongside clinical role.  
Scope of information and support available.

**Do you have any comments about the networking session?**

I enjoyed it very much  
Good forum for ideas despite different specialities  
Useful to find out how NMP affects other work environments  
Went off track a bit but interesting  
Appreciated session being led by networkees  
Very helpful to have this built into the day rather than trying to do it at coffee time  
Could have been a little longer  
I agree with not feeding back to whole group  
Would prefer slightly more structure perhaps more facilitators to join group & help to keep them to the point!

Met peers from other PCTs. Very useful for sharing ideas & commenced communications. Clinical support across PCT boundaries

There were disease experiences from different work areas

Good to be able to talk to others in the same role and hear how others work the role and the similar difficulties encountered

Helpful to be in group of similar professional group

Reminding me of my responsibilities

**What were the most useful aspects of the conference?**

Taking back to basics principles of prescribing – good revision – good reminder

Evidence Based Session was great

Shared concerns and shared achievements

All was useful

BNF

Networking / legal / medico aspects of work

Interesting & informative speakers and a great opportunity to network with colleagues working in similar roles.

Incident reporting

The fact that it was generic, not too specific

Professional issues discussion

Great chocolate idea – I agree completely

**Do you have any suggestions for how the conference could be improved?**

Generic approach excellent

Best update I have attended

Just book me in for the next one!

More case studies / scenarios i.e. how to treat

Venue outside of London? More regional events

Lights in room made reading hard, reflecting off white paper

No

More of these events yearly

As the number of NMPs ↑ there will hopefully be ↑ scope for specialist days / conferences

Some specialist workshops – sexual health, contraception

**Finally, I am planning events for 2009/10 – I would be most grateful you have any suggestions for national NMP conference topics**

Update on pharmacology & pharmacokinetics

Excellent conference & excellent speakers

The transition from supplementary prescriber to independent prescriber – the core differences between the 2 roles.

Being the only NMP in my team of about 200, it is imperative to attend these events.

Prescribing for elderly

Managing polypharmacy

How to use community pharmacists effectively

Audits of prescribing practice

More information on CPD what is new, how do different areas deal with issue

Complexity of prescribing in someone with a damaged brain

Impacts of NMP on different roles
